Re: Update on State/Local Guidelines and Marina Ops.

We are pleased to announce the following permitted activities to further the safety of our community. We absolutely understand that some rules may be inconvenient however the health of our membership is paramount and in these challenging times - we must be following the guidelines set forth by the CDC and the New Jersey Department of Health:

June 15th is the adjusted date to have boats and Sport Ports removed from surface storage (parking and picnic area).

- Mask protocol enforced- Masks must be worn on premises and may be removed while on boats at discretion of owner
- Fresh Water system to be energized on all docks **by Friday April 24**
- Office, Clubhouse, Main Restrooms will remain closed until further notice (Contact Staff via phone during normal hours)
- The 12th Street restrooms will open with social distancing rules in effect (1 person per usage) Special sanitizing equipment on order
- Pool and Hot Tubs will remain closed until future guidelines permit
- Refrain from socializing/congregating by keeping tables and chairs off docks
- Ice machine will remain temporarily out of service

Contact Michael via phone to coordinate your boat and/or Sport Port water delivery. PPE (Mask/Gloves) must be utilized while on site.

Remember that all **Contractors and Mechanics** will need to wear their own PPE (Mask/Gloves) at all times while on SHMC property

Please limit exposure to others by refraining from inviting guests to the boats during this period. Immediate family only.

Anyone who reports any signs of illness is advise to stay off the property and not quarantine on the boat.

These are temporary limitations that will be reevaluated and reported on again in two weeks.

We appreciate your continued cooperation and wish you all to stay safe and in good health.
